

# APPLY NOW to join the FHJ ARCTIC EXPEDITION TEAM

The Institute for Industrial Management organizes an expedition to Greenland in summer 2025 as part of a new interdisciplinary course 'Arctic Technology (5ECTS)'. Technical prototypes will be developed and tested in the FHJ Smart Production Lab.

**ALL FHJ students** may apply to join the team!

To apply, upload a short CV and one page motivation/research plan latest on 31.10.2024 to <https://fhj.to/arcticexpeditionteam>

@Technical students: We are looking for new ideas related to digitalization and automatization of the new Austrian Polar Research Station.

@Design students: We are looking for students creating content, pictures and videos before, during and after the expedition.

@ALL FHJ students: We are looking for any new and exciting research topic related to the Arctic.

The following study programs provide financial support and hold therefore reserved places for students: Automotive Engineering, Aviation, Data Science and Artificial Intelligence, Design & Communication, eHealth, Industrial Management, Electronic Engineering, and Energy, Transport and Environmental Management.
